- ➢ *Starting/stopping recordings*

Introduction
This document provides general information on how to start Televis**Compact20** & **60**. For detailed information on settings and options, please refer to the User's manual available on the CD-ROM provided with the device.
Initial start-up should be carried out following the steps outlined below and in the chronological order specified.

The following operations refer to the display and keyboard of Televis**Compact 20** & **60**.
Initial start-up
- When you first switch the device on, after a long period of time, the display may prompt you to re-enter the date and time.
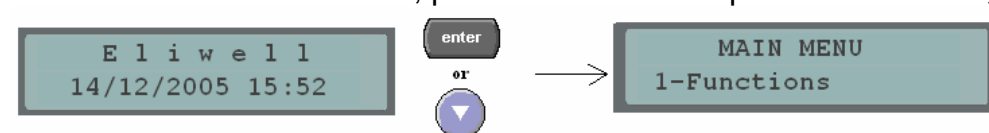

```
DATE AND TIME
14/12/2005 16:09
```
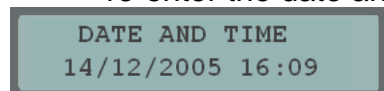

- Switch the device on and off. If the message continues to display, switch the device on and off again. Menu items can be selected ONLY when the display shows the following message, which can be regarded as the "Main View":

```
E l i w e l l
14/12/2005 15:52
```
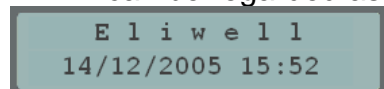

Navigating the menus
- From the "Main View", press <kbd>enter</kbd> or ⬇ to open the first menu, as shown in the figure:

- In the screen shown in the figure, press ⬇ to open the remaining menus:

The available menus are: 1-Functions; 2-Recordings; 3-Devices Names; 4-Diagnostics; 5-System Info; 6-Print; 7-Programming; and 8-Setup.

- Select the desired menu and press <kbd>enter</kbd> to open it. Alternatively, press ⬆ or ⬇ to find the desired parameter. To display the value, press <kbd>enter</kbd>; to close the screen, press <kbd>esc</kbd>. For more detailed information, see the following examples.
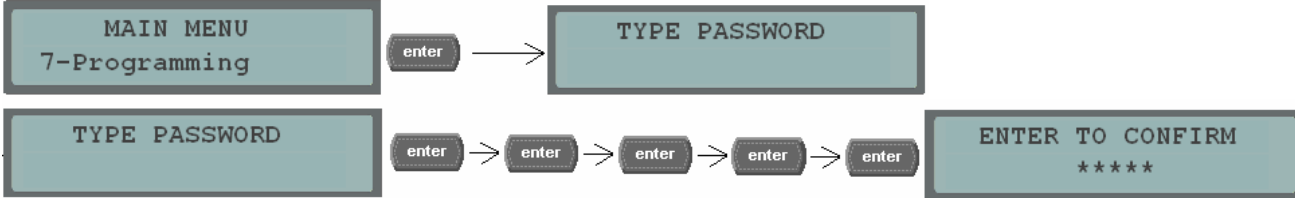

Setting date and time

Press `esc` several times to close all menus and return to the "Main View".

- From the "Main View", press `▼` several times until the following displays:
7-Programming

E l i w e l l 14/12/2005 15:52	`▼` →	MAIN MENU 7-Programming
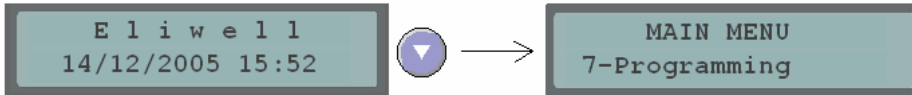

- Press `enter` to open the menus. As soon as the password prompt displays, press `enter` for 5 times, then press it one last time to confirm the selection.
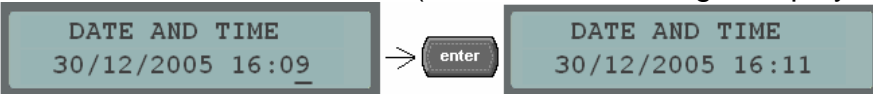

MAIN MENU 7-Programming	`enter` →	TYPE PASSWORD

TYPE PASSWORD	`enter` → `enter` → `enter` → `enter` → `enter`	ENTER TO CONFIRM *****

- Press `enter` to open Menu 1 – Clock.

PROGRAMMING 1-Clock	`enter` →	DATE AND TIME 14/12/2005 16:09

- To change the display values, press `enter`. The cursor will display under the first pair of numbers ("14" in the figure). Press `▲` or `▼` to set the desired value, press `▶` to move to the second pair of numbers ("12" in the figure), then press `▲` or `▼` to set the value, and so on.

DATE AND TIME 14/12/2005 16:09	`enter` →	DATE AND TIME 14/12/2005 16:09	`▲``▼` → `▶`	DATE AND TIME 30/12/2005 16:09

- Press `enter` to confirm (the cursor is no longer displayed under the numbers).

DATE AND TIME 30/12/2005 16:09	→ `enter`	DATE AND TIME 30/12/2005 16:11

- Press `esc` several times until the "Main View" displays.

DATE AND TIME 30/12/2005 16:11	`esc` →	E l i w e l l 30/12/2005 16:11

Acquisition range

Press `esc` several times to display the "Main Menu" if one of the menus continues to display.

- Select Menu 7-Programming (as explained in the previous paragraph), press `▲` or `▼`, select 2-Users Parameters, then press `enter`.

PROGRAMMING 1-Clock	`▲``▼` →	PROGRAMMING 2-User parameters	`enter` →	ACQUISITION INTERVAL 2 min
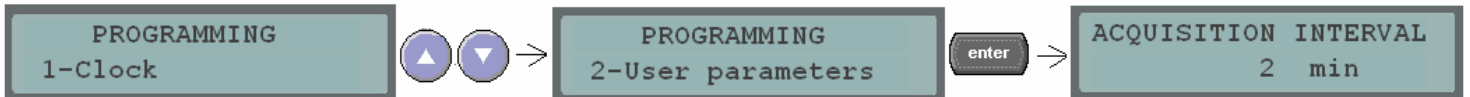

- The display shows the acquisition range. To change the displayed values, press `enter` (to display symbol <), then `▲` or `▼` to change them. Press `enter` to confirm.

ACQUISITION INTERVAL 2 min	`enter` →	ACQUISITION INTERVAL 2 min <	`▲``▼` →	`enter` → ACQUISITION INTERVAL 5 min

- Press `esc` several times to display the "Main View".

|		
ACQUISITION INTERVAL 5 min	`esc` →	E l i w e l l 30/12/2005 16:11

Automatic configuration of the network

Before using this procedure, it is essential to check the following:

1. Electric wiring of probes; power supply; and serial line
   (remember to connect the 120Ω ¼ W terminal resistor)
2. Numerical addresses assigned to modules (parameters FAA and dEA) and alarm parameters
3. The presence of EWTV modules: assignment of probes present (P1P, P2P, P3P) and alarms parameters (HAL, LAL, ..delay time)

Press esc several times until "Main View" displays, if one of the menus continues to display:

- From the "Main View", press ▼ until Menu 8 – Setup displays:

E l i w e l l 14/12/2005 15:52	→▼	MAIN MENU 8-Setup
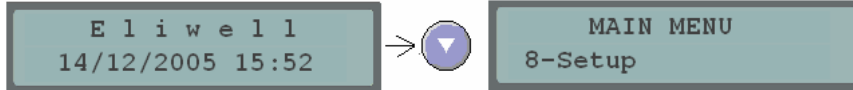

- Press enter to open the menus. As soon as the password prompt displays, press Enter 5 times, then press it one more time to confirm.
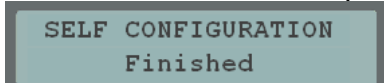

MAIN MENU 8-Setup	enter ⟶	TYPE PASSWORD

TYPE PASSWORD	enter → enter → enter → enter → enter	ENTER TO CONFIRM * * * * *

- Press ▼ until Menu 2-Network Configuration displays.

SETUP 1-Config. Parameter	→▼	SETUP 2-Network config.

- Press Enter to display Network Configuration. Press enter once more to display
  1-Self-recognition. The procedure may require a few minutes to complete.

SETUP 2-Network config.	enter →	NETWORK CONFIG. 1-Self recognition	enter →	SELF CONFIGURATION Wait...
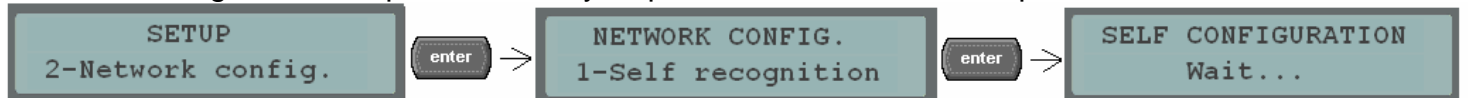

- At the end of the procedure, the following displays:

SELF CONFIGURATION Finished

- To verify if all the devices have been correctly detected, open the Edit menu by performing the operations shown in the figure:

SELF CONFIGURATION Finished	esc →	NETWORK CONFIG. 1-Self recognition	▼ →	NETWORK CONFIG. 2-Change

- Press enter. The display shows the first device detected in the family-address order (in the example F= 0-A=1, where F=FAA and d=dEA controller attribute). Then, press ▲ or ▼ to scroll the list.

|				
NETWORK CONFIG. 2-Change	enter →	DEVICE SELECTION F= 0-A= 1	▲ ▼ →	DEVICE SELECTION F= 0-A= 2

Checking the presence of drivers –Assigning a name to controllers

- In the screen shown in the figure, select the desired controller by pressing [enter]. The display shows the first item (version). Press [▲] or [▼] until Driver Presence displays. The controller is correctly managed if the latter screen displays "Yes". If "NO" is displayed, you will need to add the driver with the "Configuration Tool".
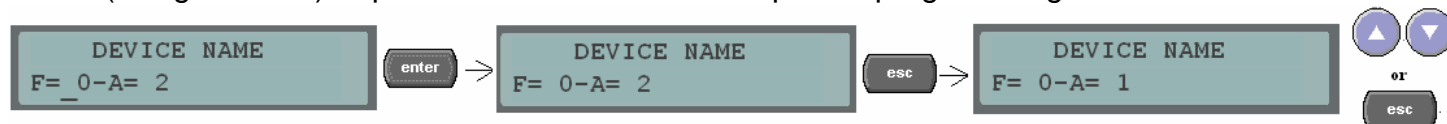

```
DEVICE SELECTION          [enter] →        VERSION          [▲][▼] →      DRIVER PRESENCE
F= 0-A= 2                                      1                                  Yes
```

- In the Presence Driver screen, press [▲] or [▼] until "Device Name" displays. Press [enter] to make the change (the cursor displays under the first letter).

```
DRIVER PRESENCE      [▲][▼] →      DEVICE NAME        [enter] →       DEVICE NAME
    Yes                           F= 0-A= 2                          F= 0-A= 2
                                                                     _
```

- Press [▲] or [▼] to scroll the letters until the desired one displays. Press [▶] to highlight the second letter [▲] or [▼] to change it, etc.…
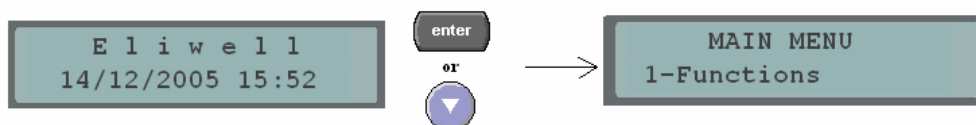

```
DEVICE NAME      [▲][▼] → [▶]      DEVICE NAME      [▲][▼] → [▶]      DEVICE NAME
F= 0-A= 2                         F= 0-A= 2                         F=_0-A= 2
_
```

- Press Enter to confirm (and display the cursor). Then, press [esc] to select another controller (using [▲] or [▼]) or press [esc] several times to quit the programming mode.

```
DEVICE NAME      [enter] →      DEVICE NAME      [esc] →      DEVICE NAME          [▲][▼]
F=_0-A= 2                       F= 0-A= 2                     F= 0-A= 1              or
                                                                                   [esc]
```
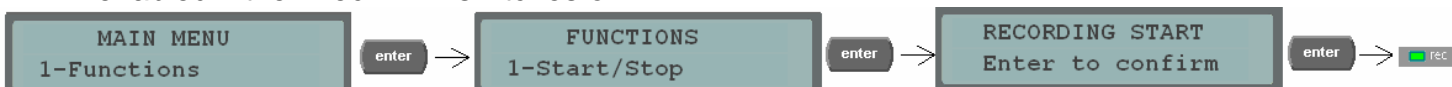

Starting/stopping recordings

Press [esc] several times until "Main View" displays, if one of the menus continues to display:

- In the "Main View", select 1 – Functions, as shown in the following figures:

```
    E l i w e l l        [enter]            MAIN MENU
  14/12/2005 15:52         or      ─→      1-Functions
                          [▼]
```

- As soon as Functions displays, press Enter following the instructions below. Recording is enabled if the "Rec" LED switches on.

```
  MAIN MENU      [enter] →       FUNCTIONS      [enter] →     RECORDING START     [enter] → [■ rec]
1-Functions                    1-Start/Stop                  Enter to confirm
```

- To stop the recording, perform the operations shown in the figure:

```
[■ rec] →     MAIN MENU      [enter] →       FUNCTIONS      [enter] →     RECORDING STOP     [enter] → [■ rec]
            1-Functions                    1-Start/Stop                  Enter to confirm
```

This procedure completes the basic start-up of TelevisCompact. The procedures for the selection of menus and parameters described above applies also to other settings. For more information on these settings (connection of the modem, fax, sms, printer, etc.), see the User Manual on the CD-ROM.
